11 - If you responded with a score of 4 or 5 for one of the previous items in course design, instructional practices, assessment practices, course impacts, or student engagement, please comment on what aspect of the course led to your score.

Response Rate	27/42 (64.29%)
<ul style="list-style-type: none"><li>• I gave a score of four or five on all categories because I believe professor Nwoye to be one of the best teachers I have had at Clemson. He is a clear instructor, offers lots of materials, and always encourages questions. Additionally, he does a great job answering questions and gives good practice for the tests. The quizzes help students understand which topics they need to focus on and Nwoye is understanding about concepts being more challenging and will go slower when teaching that section. As a student, I never felt underprepared or like I was falling behind in the workload, but at the same time, I am getting a better understanding of the concepts and the tests are still challenging enough to where students who study and pay attention will have a grade representing their effort.</li><li>• Amazing professor, always wanted everyone to understand the material, and would go out of his way to make sure they did.</li><li>• Professor is very patient, which really helps understanding and communication of course material, he also never rushes which is incredibly helpful.</li><li>• Very helpful and gives clear and great examples of real world situations of what we learn.</li><li>• I can't say that I enjoyed the material in this class, but Professor Nwoye was very kind in helping me understand difficult concepts better.</li><li>• I think that the instructor clearly explaining concepts helped me perform well.</li><li>• I feel that he really wants his students to succeed and that shows in his course design.</li><li>• Instructor was very thorough in lessons and often asked if class had any questions.</li><li>• Mr. Nwoye was extremely reachable via email and in person, explained concepts clearly, and he visibly wants the best for his students. It is obvious that he cares about his students and wants them to understand the tricky concepts in this course.</li><li>• He always explained what topic we were learning about in great detail and was always open to questions during class.</li><li>• I love how involved Professor Nwoye is in this class. His passion for MicroEconomics is shown in his lectures and examples. He gives visual examples for almost every topic and specifically goes out of his way to ask his students if they understand. He genuinely cares about the students and their grades in the class. He gives weekly quizzes that help review the information you learned that week. He helps us prepare for our exams by providing practice exams, and after the test, he spends multiple classes reviewing the exam and making sure everyone understands. He is a passionate teacher who loves his job and cares for his students.</li><li>• Professor Chuwuma clearly told us what would be expected from us. He truly is the ideal economics professor. Though it is just a "click and slide" class, the slides were helpful and the concepts were actually on the test that he showed on the slides. The quizzes we took (even though they were worth an outrageous 20%) were directly related to content we'd see on the exams. He gave us examples of each concept and drew on the whiteboard constantly showing us the graphs of the economics models. He went over every problem after each quiz and exam, so you'd know exactly why you got something wrong with an explanation of the right answer in class instead than having to seek him out elsewhere. Even though everything is answered in class, he is also very accessible outside of class and responds to emails quickly. Professor/Lecturer Chuwuma is a great teacher.</li><li>• He would meet with us one on one when we couldn't make his office hours which was nice.</li><li>• The instructor showed what was going to be applied on the tests throughout the year and engaged with the class every lecture.</li><li>• I picked a 4 because I agreed with how satisfied I was while taking this course</li><li>• Professor cares deeply for his students and encourages our success/growth.</li><li>• N/A</li><li>• the professor was engaging and did his best to thoroughly explain topics</li><li>• He explained the concepts very in detail, but it was sometimes confusing. He always asked us if we had questions and would call on us to make sure we were engaged and understood.</li><li>• I liked the weekly quizzes that forced me to actually understand the material.</li><li>• This was by far my favorite class this semester. My professor made the material very digestible and easy to understand. He was amazing and I wish I could take him again</li><li>• He is very accommodating and wants us to do very well in the class so he will make any adjustments needed to help us.</li><li>• The over all of how the class was taught and how the professor communicated with his students.</li><li>• Professor Nwoye was one of my favorite instructors this semester. He is very engaging, helpful, and friendly. You can tell that he cares about his students and wants them to succeed.</li><li>• are teacher was always making it aware of his office hours and he would even strongly try to meet you at and time that would work best for you.</li><li>• Professor Nwoye was very helpful all semester and definitely my favorite of my first semester.</li><li>• I really enjoyed the professor, and he was very engaged with the students.</li></ul>
