12 - What suggestions do you have to improve this TA's ability to teach?

Response Rate	10/16 (62.5%)
<ul style="list-style-type: none"> • Nothing, he did very well. • to do more interactive activities to help students learn in a fun and memorable way • A more organized class schedule, but other than that, he was excellent. • Have a more structured TA section. • The accent barrier made it hard to understand him sometimes. • Slow down when speaking • Lessons are very slow at times and I become uninterested at points. • Try to give more questions out that are similar to the questions on the quizzes, so that we can better understand the material. • Keep doing what you're doing. • I think that more complicated questions would help; he used the questions from the reviews that Professor Hanssen gave us online, which helped. But overall, the test was much more complicated than the review, so those more challenging questions could help us get to that next level.
