- He would consistently encourage the class to ask questions and was very understanding and patient.
- The assignments directly correlated with the lecture material and prepared me for the exams. He also did well at explaining the answer choices for quizzes and exams which helped me learn what I did wrong.
- The professor is VERY kind, and understanding, and he want the students to fully grasp the material of the class. The tests are very fair, and he provides great study guides that are similar to the tests. He explains the concepts very in depth and asks many questions to ensure that the class is understanding. He also encourages studying and puts emphasis on more important topics within the class. He is a very good professor, and I would take another class from him.
- Professor Nwoye was amazing
- I really enjoyed that it was not homework heavy because it gave me more time to study for the weekly quizzes and lead me to want to focus more on the content in class. He was also always encouraging us to ask as many questions as possible which I enjoyed!
- I didn't attend class very often simply because I had already learned a lot of this from high school so my opinion may be skewed. Lectures were simple but went over everything that was necessary and were explained well. Quizzes reinforced learning and caught early mistakes I would otherwise be making on the exams. Exams were reflective of the material learned.
- He cared about teaching the content fully and clearly. The midterm practice exams were helpful and reflective of the actual midterm exams.
- I liked how the instructor encouraged questions from myself and my peers. It made me feel that he really cared about our learning.
- this teacher was kind and easy to work with.
- He always encouraged people to ask questions and participate in in-class discussions. He attempted to break down difficult concepts to the best of his ability.
- I think overall the professor did well, he encouraged us to ask questions in class and explained things thoroughly...
- I think the assignments reflected my learning extremely well. I didn't think anything was too hard. Professor Nwoye did a very good job explaining things and many different ways to help everyone understand.

- Class was straight forward and mostly given to you.
- The professor was amazing! He was constantly engaging with the class and trying to get the students to be engaged as well. You can tell he really cares about his students despite a lot of students being dismissive in class time. His assignments and workload is small, but effective.
- Instructor was great and would recommend him to many!
- Quizzes showed us exactly what we needed to come away with each week. The professor frequently told us if we needed to remember something in specific because it would be on an exam/important for us to know in the end of the class.
- It was planned well and was made simple to make it easy to understand everything
- Instructor was very helpful, and encouraged to come ask questions outside of class hours if we did not understand something.
- I really enjoyed the 2 midterm and final structure. I wish the final was optional if you had an A.
- Professor Nwoye was very knowledgeable and taught the class well. His exams reflected our practice and slides very well. He was a great teacher and really knew what he was talking about
- The professor did a good job of communicating the material and explaining the expectations for the course.
- Professor Nwoye Had a good layout out for assingments he was very knowledgeable in Econ and was happy to help if you had any issues.
- I thought the class was well put together and I main learning objectives of the course were clearly explained in an easy to understand way by the profesor.
- The instructor was very kind and was always willing to explain concepts and help anyone when they needed it i enjoyed taking this course
- I think he is a great person to connect with, he's kind and wants his students to succeed and ask questions at any time there is confusion during the class. He's very clear about what he's talking about, even if it's a little hard to understand him at first, it gets easier, and he is very direct with the material and examples in class.
- Professor Nwoye did a great job of giving relatable, relevant examples, and simplified concepts to the best of his ability. Students were not engaging with his lectures which was not his fault and must've been very frustrating. I would recommend he enforces questions before moving onto the next topic or making a no computer policy in the classroom- paper notes only.

12 - The course helped me develop my analytical skills.
